

Parkinson's Foundation PD GENERation Genetic Registry

Status: RECRUITING

Eligibility Criteria

Age: 18 years and over

This study is NOT accepting healthy

Healthy Volunteers: volunteers

Inclusion Criteria:

* Study Population 1: PWP (open for recruitment) 1. Meet Movement Disorder Society (MDS) Clinical Diagnostic Criteria for Parkinson's Disease: probable diagnosis. 2. Willingness to undergo genetic testing, and choose to be informed of genetic testing results for GBA, LRRK2 and 5 additional PD related genes (SNCA, VPS35, PRKN, PINK-1, PARK7). 3. Capacity to give full informed consent in writing or electronically, and have read and signed the informed consent forms (ICFs) based on site clinician's determination. 4. Able to perform study activities (including completion of either online, in-person or paper surveys). Study Population 2: People at risk of developing PD (not open for recruitment) 1. Family members of Study Population 1 may be invited to participate in the study if confirmatory genetic testing is deemed necessary by the genetic testing laboratory.

Exclusion Criteria:

1. Diagnosis of an atypical parkinsonian disorder (i.e., multiple system atrophy, progressive supranuclear palsy, dementia with Lewy bodies, corticobasal syndrome), including that due to medications, metabolic disorders, encephalitis, cerebrovascular disease, or normal pressure hydrocephalus. 2. Individuals who have received a blood transfusion within the past 3 months. 3. Individuals who have active hematologic malignancies such as lymphoma or leukemia. 4. Individuals who have had a bone marrow transplant within the past 5 years. 5. Under the age of 18

Conditions & Interventions

Interventions:

DEVICE: Lab Assay for seven genetic variants for Parkinson's Disease

Conditions:

Parkinson's Disease

Keywords:

Genetics, Genetic Counseling, Whole Genome Sequencing
